Bengaluru, India · +91 91188 53737 · ashu.61003@gmail.com · [LinkedIn](#) · [GitHub](#)

Professional Summary

Final-year Computer Science undergraduate focused on **product management, software engineering, iOS development, and AI/ML**. Experienced in 0→1 product discovery, PRDs, user flows, wireframes, stakeholder coordination, experimentation, and shipping product releases. Strong technical foundation in **Java, Python, Swift, SQL, SwiftUI, REST APIs, ML models, databases, Git/GitHub, and cloud tools**.

Education

Vellore Institute of Technology – AP

B.Tech in Computer Science and Engineering

Expected May 2026

CGPA: 8.66/10.0

Experience

Product Intern, Flurn

Bengaluru

- Led product development for **5+ EdTech products**: Content Studio CMS, AI Quiz Validator, TeachAI Assistant, TeacherHub Dashboard, and ProgramFlow Manager; wrote PRDs, mapped user flows, created wireframes, and helped ship **3 major releases**.
- Automated content, onboarding, and scheduling workflows with AI-powered solutions, reducing manual effort by **40%**, improving completion speed by **35%**, and supporting **50+ teachers** and **1000+ learners**.
- Owned discovery for 0→1 AI features including question generation and teacher analytics; conducted **20+ user interviews** and defined success metrics across engagement, retention, and NPS.

Product Intern, Hugsy

Remote

- Led product work for an early-stage couples mobile and web app; defined features, wrote PRDs, created user flows/wireframes, and coordinated with design and engineering to ship updates.
- Researched **10+ couples/social apps**, prioritized roadmap gaps through impact-effort analysis, and ran onboarding, prompt, and referral experiments that drove **1000+ initial visits**.
- Owned launch content across X, Reddit, and Instagram, producing product storytelling and campaigns that reached **5K–10K+ views** while supporting product-market validation.

Projects

Leakage-Free Explainable Parkinson's Detection

Apr 2026

- Built a voice-based biomedical ML framework with GroupKFold validation, TVAE synthesis, Honest SMOTE, L1-SVM feature selection, XGBoost/LightGBM/CatBoost ensembles, and SHAP explainability to prevent leakage and improve clinical transparency.

Fuzzy Logic Algorithm for Rainbow Coloring

Nov 2025

- Co-led a graph algorithm project combining fuzzy logic and rainbow coloring; implemented α -cut graphs, BFS/DFS checks, spanning-tree coloring, and greedy optimization across line, tree, star, cyclic, wheel, bipartite, and complete graphs.

SCOPE – Solar Capacity Output Potential Estimator · [GitHub](#)

Aug 2025

- Developed a SwiftUI iOS app estimating solar generation from location, roof area, and weather using Core ML regression, Core Location, WeatherKit, REST data, MVVM architecture, maps, and onboarding; achieved **<5% prediction error**.

E-commerce Data Analysis System · [GitHub](#)

Sep 2025

- Created a Python/SQL analytics pipeline with CSV ETL, relational schema design, complex queries, segmentation, revenue analysis, visualization, and Jupyter notebooks with **>99% successful execution**.

Dash Cricket Scorecard App · [GitHub](#)

Jul 2025

- Built a Swift/SwiftUI iOS scorekeeping app with ball-by-ball tracking, dynamic teams, innings management, final scorecards, OOP game logic, state management, and **>95% score-tracking accuracy**.

Infant Cry Classification Using Deep Learning · [Report](#)

Nov 2024

- Classified infant cries into five categories using Donate A Cry Corpus, ResNet-50 spectrograms, YAMNet embeddings, MFCC neural networks, Librosa preprocessing, Adam optimization, and TensorFlow/Keras; achieved **>81% accuracy**.

Technical Skills

Languages	Java, Python, Swift, R, MATLAB, SQL.
iOS/Product	SwiftUI, UIKit, Core ML, Core Data, AVFoundation, MVVM, MVC, VIPER, PRDs, wireframes.
Data/ML	NumPy, Pandas, Matplotlib, Jupyter, Power BI, TensorFlow/Keras, XGBoost, LightGBM, CatBoost, SHAP.
Backend/Tools	MongoDB, MySQL, Firebase, Azure, REST APIs, CI/CD, Git/GitHub, Xcode, VS Code, Figma.

Leadership & Certifications

Social Media and Outreach Lead, WiOS – VIT-AP

Oct 2022 – Jun 2023

Managed 5+ events with 200+ attendees, grew LinkedIn/Instagram presence, coordinated cross-functional outreach plans, and led task delegation for event execution.

Certifications
